depression - epidemiology, prevention, risk factor, brain health, stroke, dementia

## A Corrigendum on

### The predictive validity of a Brain Care Score for late-life depression and a composite outcome of dementia, stroke, and late-life depression: data from the UK Biobank cohort

By Singh SD, Rivier CA, Papier K, Chemali Z, Gutierrez-Martinez L, Parodi L, Mayerhofer E, Senff J, Clocchiatti-Tuozzo S, Nunley C, Newhouse A, Ouyang A, Westover MB, Tanzi RE, Lazar RM, Pikula A, Ibrahim S, Brouwers HB, Howard VJ, Howard G, Yechoor N, Littlejohns T, Sheth KN, Rosand J, Fricchione G, Anderson CD and Falcone GJ (2024) *Front. Psychiatry* 15:1373797. doi: 10.3389/fpsy.2024.1373797

In the published article there was a error in the **Conflict of interest** statement for M. Brandon Westover. The statement was previously:

“CA receives sponsored research support from the US National Institutes of Health, the American Heart Association, and Bayer AG, and has consulted for ApoPharma. GF receives sponsored research support from the National Institute of Mental Health Clinical Global Mental Health Research T32 Fellowship, receives royalties or licenses from Johns Hopkins University Press, University of Chicago Press, Belvoir Press, and the American Psychiatric Press, is on a Data Safety Monitoring Board or Advisory Board of Healthy Hearts Healthy Minds DSMB, is a Board of Directors member at the Rosalynn Carter Institute, and has stock or stock options from Revival Therapeutics Consultant. LG-M receives sponsored research support from the American Heart grant number 963719. JR receives sponsored research support from the US National Institutes of Health and the American Heart Association, and receives payments for expert testimony and consulting fees from the National Football League. EM is an employee of Regeneron Genetics Center.

The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

The author(s) declared that they were an editorial board member of *Frontiers*, at the time of submission. This had no impact on the peer review process and the final decision.”

The correct statement appears below:

“CA receives sponsored research support from the US National Institutes of Health, the American Heart Association, and Bayer AG, and has consulted for ApoPharma. GF receives sponsored research support from the National Institute of Mental Health Clinical Global Mental Health Research T32 Fellowship, receives royalties or licenses from Johns Hopkins University Press,

University of Chicago Press, Belvoir Press, and the American Psychiatric Press, is on a Data Safety Monitoring Board or Advisory Board of Healthy Hearts Healthy Minds DSMB, is a Board of Directors member at the Rosalynn Carter Institute, and has stock or stock options from Revival Therapeutics Consultant. LG-M receives sponsored research support from the American Heart grant number 963719. JR receives sponsored research support from the US National Institutes of Health and the American Heart Association, and receives payments for expert testimony and consulting fees from the National Football League. EM is an employee of Regeneron Genetics Center. MW has private equity as co-founder of Beacon Biosignals and receives compensation for consulting and scientific advisory roles.

The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

The author(s) declared that they were an editorial board member of *Frontiers*, at the time of submission. This had no impact on the peer review process and the final decision.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
